We are delighted to present the lecture by Ezlina Adnan, which explores the life and work of CHARLOTTE PERRIAND, as part of the *Vision Culture Series*.

One of the most influential furniture designers of the early modern movement, Perriand (1903-1999) introduced the 'machine age' aesthetic to interiors in the steel, aluminium and glass furniture she created at Le Corbusier's architectural studio in the late 1920s and 1930s. Thereafter, she continued her design experiments with different materials.

This bilingual exhibition (French-English) at SGFA includes drawings by Perriand, photographs of her works and abstracts from her writings. The Lecture will be held against the backdrop of this exhibition which invites the general public to observe Charlotte Perriand's life through her work.

Furniture designed by PERRIAND will also be on display.
